Spa Time Baby® Cape \$39.95

The Spa Time Baby Cape is a cape style towel that slips over the parent's head, allowing them to safely, securely and promptly lift their baby from the bath and immediately wrap them in the warmth of their arms. This immediate comfort removes the stress created by the baby moving from a warm environment to the cold air. The exclusive built-in waterproof panel keeps the user dry so they can focus on enjoying this nurturing time with their baby rather than fumbling for a towel. Mom's or dad's body heat pre-warms the cape so it keeps the baby warm after they have been removed from the bath. The patented cape is a safe and convenient accessory for drying a baby and while holding them post-bath.

About Spa Time Baby®

Debra Medina and Leslie Barile have spent the last 20 years dedicated to making a difference in the lives of children through their work in the public school system. They have built Spa Time Baby with the intention of reaching out to support children across the globe by consistently donating a portion of their products and proceeds to organizations dedicated to babies and children.

For Medina and Barile, it has always been about creating a nurturing, peaceful and calming environment for their babies and the students. As moms, they wanted to nurture and pamper their babies with spa inspired products and soon realized these spa products and services for babies and toddlers were hard to find. As a result, Spa Time Baby was created in order to bring these types of products to moms everywhere. Since the launch of the Spa Time Baby® Cape, Spa Time Baby has expanded its products offerings to include Spa Time® Baby Mats, Cloths, Caps, massage products for babies and much more. Spa Time Baby is a 2009 winner of the Parent Tested Parent Approved Seal of Approval. For more information about Spa Time Baby, visit www.spatimebaby.com or www.spatimepets.com.
